

BONAN TOWERS • DIGITAL FIELD OPS SOURCE PACKET

Use this packet to build the iPad/web-based app (workflows, forms, checklists).

Included:

- 1) Executive Maintenance Log / Program (source-of-truth standards)
- 2) Emergency Contact Sheet (Vendor + Emergency contacts)
- 3) Daily Walkthrough Checklist
- 4) Vendor Contact List (editable list page)
- 5) Work Order Form (1-page template)
- 6) Incident / Alarm Report (2-page template)

Build the app so techs can run walkthroughs on iPad, create work orders and incident/alarm reports with photos, and export monthly board-ready reporting. Keep audit trail and offline mode as requirements.

FILE IN: Binder - Executive Overview (Front)

Executive Maintenance & Loss-Prevention Program

This log is designed for executive ownership review and insurance/loss-control audit. It documents routine walk-throughs, critical-system visual checks, issue escalation, and compliance verification for a multi-tower commercial facility.

Property / Building	Bonan Towers (North & South Towers)
Address	14323 South Outer Forty, Town and Country, MO 63017
Prepared By	Title
Primary Contact	Phone
Property Manager	Phone

Facility Profile

Configuration: North Tower (6 floors) + South Tower (6 floors), connected by a 1st-2nd floor atrium.

Core Areas: Men's and Women's restrooms on each floor; water fountains on every floor; electrical closets on each floor.

Amenities: Atrium common area; kitchenette/common area with sink, coffee bar, snack section, and refrigerated retail fridge; shared conference room.

Critical Systems: Sprinkler pump room (includes main fire alarm panel); mechanical/boiler room; fire alarm sub-panel outside boiler room.

Vertical Transport: Elevators - North Tower (2 cars), South Tower (2 cars).

Site: Large parking lot; front/back entrances; stairwells with emergency exits.

Emergency Power: None (no generator/backup power system onsite).

Deficiency Classification & Escalation

Level 1 - Life Safety / Active Alarm / Critical Failure: Immediate escalation, secure area, call 911/vendor as required, and notify ownership/PM.

Level 2 - High Risk / Property Damage Likely: Same-day work order + mitigation plan (shutoff, containment, signage).

Level 3 - Operational Deficiency: Schedule repair; track to completion.

Level 4 - Cosmetic / Minor: Bundle into planned maintenance.

Recordkeeping Standard

Use one Work Order (WO) reference per issue. For Level 1-2 items, complete a Work Order Detail Sheet and reference the vendor report/invoice/certificate (binder tab or file name). Retain logs per ownership and insurance requirements (recommended minimum 3 years).

Completion Checklist (check all that apply)

- ☐ Daily walk-through logs completed and filed.
- ☐ Monthly fire extinguisher visual inspection completed and filed.
- ☐ Daily critical systems checks (pump room/boiler/fire alarm/elevators) completed and filed.
- ☐ Elevator monthly checks completed (North & South towers - 2 cars each) and filed; issues escalated.
- ☐ Retail fridge temps logged; corrective actions documented for out-of-range readings.
- ☐ Water fountain/bottle filler sanitation & filter tracking updated; issues documented.
- ☐ Weekly sprinkler pump room test logs completed (if applicable) and filed.
- ☐ Monthly deficiency register updated; Level 1-2 mitigation documented.
- ☐ Fire alarm panel status/trouble reviewed; troubles documented with WO and vendor contact.
- ☐ Open work orders reviewed; priorities set; no unmitigated Level 1 conditions remain open.
- ☐ Monthly emergency lighting & exit sign test completed and filed.
- ☐ Vendor reports/invoices/certificates (if any) filed and referenced by WO # or binder tab.

DAILY WALKTHROUGH CHECKLIST

Bonan Towers • Field Ops

CHECKLIST ITEMS

- ☐ Arrive, sign in (if required), and confirm building access rules for the day.
- ☐ Safety scan: trip hazards, blocked exits, water on floor, odor/smoke, damaged doors/windows.
- ☐ Check priority systems (as applicable): fire panel status, elevator status lights, key mechanical room status.
- ☐ Walk common routes: lobby → corridors → stairwells → restrooms → mechanical/common rooms (as applicable).
- ☐ Document issues immediately (photo + note). If it needs action, create a Work Order (WO).
- ☐ Log any alarm or emergency event using the Incident/Alarm Report.
- ☐ Keep areas clean: remove debris, stage materials out of the way, keep walk paths clear.
- ☐ End-of-day close: confirm doors secured, lights off where responsible, and notes filed.
